

WHY IS SAVREMENA GIMNAZIJA THE BEST CHOICE FOR YOU?

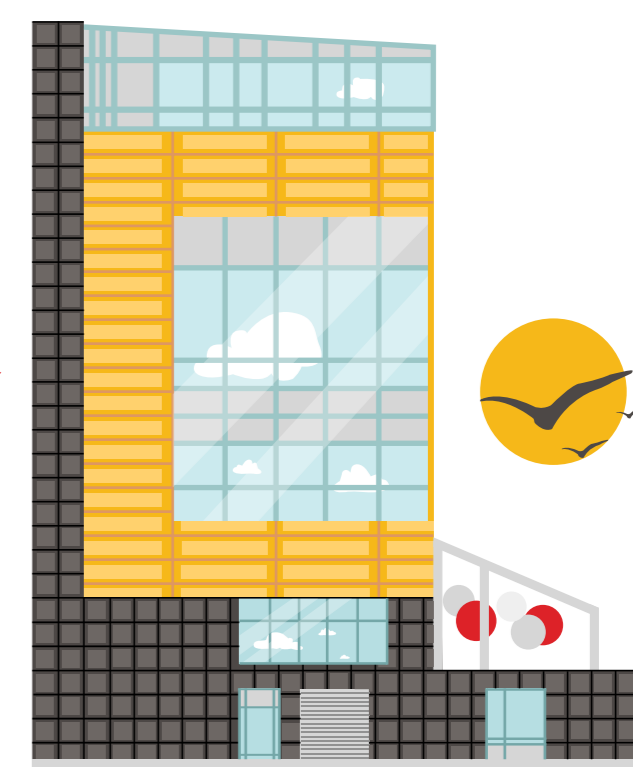

DO YOU WANT ?

- MORE
- BETTER
- AIM HIGHER

IF SO, THEN

IS THE BEST CHOICE FOR YOU!

STUDY HARD BUT KNOW WHY

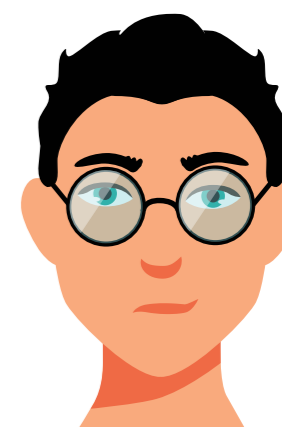

If you thought that students in private schools study less and get marks easily – you were wrong. In Savremena Gimnazija students do study hard but with a good reason – to prepare well for what is coming up at the university and in career alike. The knowledge and skills that we teach here are the ones which will shadow you throughout your life, providing you with a great entry point for universities in Serbia or abroad, as well as for future career opportunities.

Our teachers are seasoned educators, with years of experience and outstanding professionalism. They demand a lot, but give as much in return: responsibility, respect, effort and knowledge. They will recognise and nurture your talents and provide learning support where needed. Each year, you will choose your mentor – one of the teachers who you can talk to, confide in and who will be your support at school, someone to share the good times and the bad.

TEACHERS

97% fair

YOU matter!

Like every other school, ours has some downfalls, but we strive to make them up by being constantly open to your suggestions and requests. We encourage you to state clearly what we can do for you, so that you feel in our school at home.

Respect

FOR EACH AND EVERY STUDENT

Your happiness comes first. It is very important for us that you feel accepted, that your talents are recognised and nourished, and in case you need some learning support, we will surely provide some. At no point will you be left to fend for yourself, lost in the crowd. By respecting your personal integrity, we will build up your confidence and encourage you to decidedly stride towards your goal.

LESSONS:

MULTIMEDIAL

PARTICIPATIVE

EXPERIENTIAL

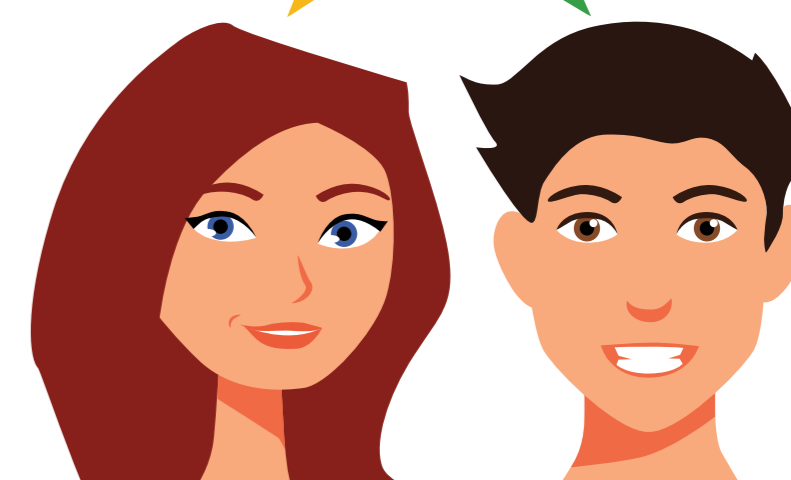

Our lessons are multimedial, wholly participative and experiential, which means that learning cannot fail to involve the whole person. You will also learn in many ways: using video and audio material, interactive boards, tablets and laptops. All material will be available on the online platform, which you can access from any location. At this school you will get familiar with various methodological trends, ranging from teamwork to self-reliant research project. Various workshops and clubs will also be available to you - whether you want to play in a band, do some extra lab work, edit the school newsletter or organise a solo exhibition. All your efforts and hard work will be duly rewarded with one of our scholarships.

IN TWO LANGUAGES: ENGLISH AND SERBIAN

At our school, you can choose between a teaching programme in English or in Serbian, selecting either the Serbian National or Cambridge International curriculum. If you would like to take up Cambridge but your English is not good enough, there's a special preparatory course designed for you and included in our Mix package. The choice you make at the beginning will determine whether you will get a national or an international diploma at the end of your secondary education. If you are ambitious enough, obtaining both diplomas is also possible.

Zdravo!

Hello!

COOPERATION WITH PARENTS

Parents are usually those who support your intentions of becoming part of our school, which is why we share the same goal – we all want YOU to be happy and to come to school not because you have to but because you want to. However, your parents are also granted access to your marks, records and teachers' comments kept in the electronic diary, which is why we encourage you to keep an open and honest relationship with them.
